

MARK V™ Platinum

Graco's top of the line Sprayers for Paints,
Fire Retardant and Airless Plasters

PLATINUM ADVANTAGES

- Integrated hose reel. Start your spraying job faster and go home sooner without the hassles of hose handling.
- Precise pressure control at the end of your hose. Fine-tune or shut down your sprayer from wherever you are spraying. Finer finish and reduced overspray (thus, wasted paint).
- E-Lock™ theft-deterrent. Just like with your car. Lock your sprayer while unattended. Will discourage any thieves.

MARK V™ Platinum

With ProConnect™ for Paints, Fire Retardant and Airless Plaster Applications

After introducing the Mark V in the market, mid nineties, Graco became a real trendsetter for spraying plasters airless. The speed of airless, combined with a very smooth finish, became a standard in the industry.

The Mark V™ Platinum

Easy, quick and reliable, the Mark V boasts a strong positive track record. Listening to contractors, all over Europe, this all-rounder was gradually adapted to the most demanding wishes of our customers .

With the Mark V Platinum edition, one more step was added to this very interesting challenge. Equipped with a hose reel system, electronic theft deterrent system, wireless pressure control and automatic AutoClean™, the Mark V Platinum has really everything to set a new trend. This unit will make your work even easier and very comfortable.

E-Control™

The wireless pressure remote Control, attached to the hose, allows you to adjust pressure at any time without having to approach the unit. Robust, waterproof, solid design with 45 m reach.

E-Lock™

Electronically locks your sprayer to deter theft of your valued Platinum sprayer. One E-Lock key can be programmed to lock several Platinum sprayers. Several E-Lock keys can be programmed for one Platinum sprayer. Manual coding is possible in case you loose or forget your E-Lock key. Just don't forget your E-Lock code!

A red light alerts others that your Platinum sprayer is E-Locked!

E-Lock keys (x2) sold separately

AutoClean™ 2 + Heavy Duty Prime Valve

Now fully automated. Connect your gun and switch the HD prime valve to the AutoClean position. The system will do the rest: while you start other cleaning activities, the system cleans gun, hose, filters and unit independently!

Integrated Hose Reel

Special layout design. Roll out and up in a few seconds up to 45 m hose, giving an autonomy to spray in a range of 90 m without transporting the unit. Holds: 90 m (1/4") / 60 m (3/8")

Materials & Applications

The MARK V™ PLATINUM is a real multiple purpose unit for large painting jobs for the inside as well as the outside! Your most reliable buddy sprays airless plasters and most common paints.

The MARK V PLATINUM sprays latex, emulsions, acrylics, epoxies, blockfillers, fire retardants and most common airless plasters. It even has enough performance to deliver the necessary flow for 2 people spraying paint simultaneously.

TiltBack Cart Design

Sprayer kick stand allows convenient, one person bucket change and facilitates cleaning and maintenance of your pump.

Endurance™ Pump

Graco's proven and reliable piston pump technology with LongLife-V packings. QuickAccess™ intake valve to easily clean or clear debris.

www.graco.be

The smartest SmartControl-E™

The digital SmartControl-E continually monitors how you spray and adjusts the pump's functioning in less than one second. Even with multiple guns, there is no delay in waiting for your sprayer to catch up and to keep your spray pattern consistent.

This smart brain coordinates all electronic devices such as the AutoClean™ timer, E-Lock™, wireless pressure E-control™, (life time) gallon counter, error coding and pressure rating. Simple, just by one button.

GOOD TO KNOW

PROCONNECT™ — NO TOOLS PUMP REMOVAL SYSTEM

DOWNTIME COSTS YOU MONEY!

The ProConnect pump removal system makes it easy to swap Endurance™ pump fast and easy. In a few seconds, on the job site, without any tools. Just like with your car tires. Keep a spare!

PLASTER SYSTEM

Extend your platinum sprayer to a fully complete plaster system with the 90 liter hopper and bag roller if you spray materials delivered in bags. For very big projects with > 200 liter bins, a container suction kit would be your optimal solution.

! TIP

For improved pump performance when spraying plasters, replace the SST ball in the lower pump with the ceramic ball (delivered free with the unit)

Mark V™ Platinum Accessories

Get the most out of your equipment, using our professional accessories

Improve your finishing quality

Guns

- 289605 TexSpray™ blue gun with RAC X guard and 531 tip
